

SECTION 01 11 13

SUMMARY OF WORK

PART 1 GENERAL

1.01 SUMMARY

A. Scope of Work

1. Prior Test Well

A test well was drilled in 2009 near the location of proposed well no. 8 (near Baumbach Road). The driller's log and a portion of the electric log are included in this project manual for information.

2. Work To Be Performed

The work of this contract consists of construction of two water wells with pumps and accessories as specified and detailed. The location of each proposed well is shown on a map included in this project manual. An alternate bid is included for a test well at the site of Well No. 9 (the location at which a test well has not been constructed).
