

SECTION 01 11 13

SUMMARY OF WORK

PART 1 GENERAL

1.01 SUMMARY

A. Scope of Work.

1. The light poles, all lighting equipment and fixtures on the pole, and all wiring inside and on the pole from the handhole at the base of the pole to the top of the pole, including all related electrical equipment on the pole, are to be furnished and installed by the Contractor.
2. All underground wiring to the handhole at the base of the poles and all electrical distribution equipment will be furnished and installed by others. The City of Schulenburg plans to install these items.
3. The initial 100 hour burn-in of the lamps will be performed by the City of Schulenburg.
